06

Our Future

# Introduction

## How we got the idea

Overheard a group of students discussing what organisational tool to use.

## Our idea

Implement a simple task management tool to the Epitech Intranet.

# Meet the team and its organisation

Jules  
Dufrache

Luca  
Martinet

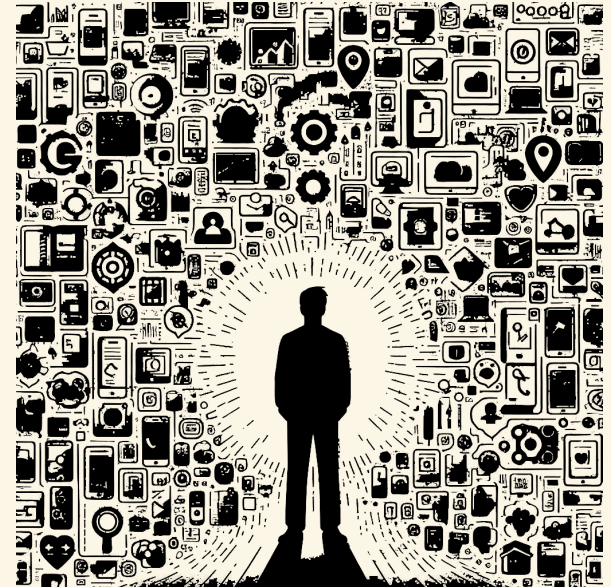

Noé  
Kurata

# Our Solutions

- Choosing / Adapting to teammates choice of project planner
- External to the Epitech Intranet
- No need to create any other account
- Having our projects and teammates linked directly to the tool

# Our Vision

## Visuals

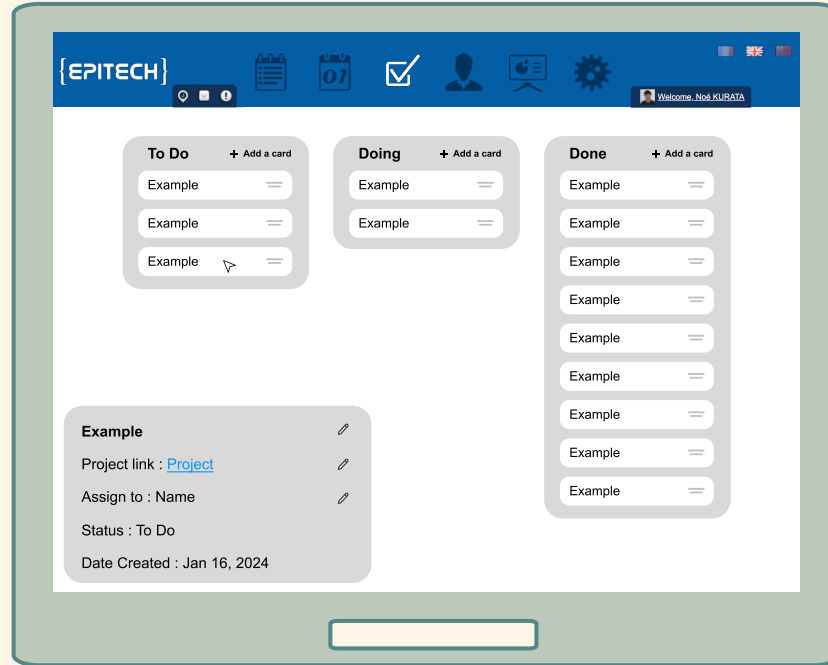

Simple Design, aligning with the Intranet

## Price

None :)

## Availability

Only as an extension  
(for now)

## Features

Integrated to  
Epitech's Intranet

## Users

Epitech Students

## Updates

If met with enough  
feedback

# Timeline

Initiative	Objective	Mon	Tue	Wed	Thu	Fri
Understanding process	The problem present in todays organisational tools					
Brainstorm ideas	Generate ideas based on user feedback and research findings					
Conduct research	Research existing products in the industry					
Develop a prototype	Create a basic version of the product					
Test for usability	Put the prototype through rigorous testing					
Idea Presentation	This very Presentation					

# Our Future

## Intra Integration

Having our own tab on the Epitech Intra, connection with groups and Project

## Use visuals

Incorporate visuals or graphics to give colors to specific tasks and projects

## Mouli Integration

0% = To do  
1–99% = In Progress  
100% = Done

## Github Intergration

Being able to go directly to github, name linking with tasks. If name is equal set task as done

## Feedback

Being able to take feedback instantly on the page to improve functionalities

## Description

Add a way to write an in depth description in the card

# Thanks!
